- Adult cuts squares along dotted lines, and places squares face down on table.
- Adult draws one square at a time, shows children the picture, and says the word.
- Children check their Bingo cards to see if they can find the matching picture. Matching pictures are marked with a reusable place marker (Bingo chip, counting cube, button, etc.).
- Children can say "BINGO!" if they mark every picture on their Bingo sheet, or if they complete a horizontal, vertical, or diagonal line.
